## NLT Birding Marathon 2024

### Jack van Nostrand Nature Reserve - Andrea Kingsley and Marie Wannamaker - 2024 May 23

On May 23, Marie Wannamaker and Andrea Kingsley searched for birds on the Jack van Nostrand Nature Reserve. It was a beautiful day with lots of bird song.

The main warbler migration seemed to have been finished early this year, but we still ended up with 12 species of warblers and a total of 70 bird species overall. A large flock of Brant (right) far offshore was a nice surprise and it was wonderful watching large numbers of Caspian and Common Terns foraging offshore.

#### The full list:

Brant	Double-crested Cormorant
Canada Goose	Great Egret
Wood Duck	Great Blue Heron
